EDUCATION

Thakur College of Engineering and Technology Aug 2025 - Present
Bachelors of Engineering in Computer Engineering *Current GPA: 9.41/10.0*

EXPERIENCE

Spanwiz | **Proof of Work** June 2024 – July 2024
Web Developer & Digital Marketing Intern *WordPress, Elementor, HTML, CSS, JavaScript, SEO, SEM, Google Ads*

- Worked as a Web Developer and Digital Marketing Intern at SpanWiz LLP, developing and optimizing responsive websites using WordPress and Elementor. Built frontend mini-projects using HTML, CSS, and JavaScript while gaining hands-on experience in SEO, SEM, Google Ads, and digital content creation using Canva and Ubersuggest.

PROJECTS

Innoverse | *Next.js, TypeScript, Node.js, Express.js, MongoDB, GitHub API* Proof Of Work

- Developed a full-stack collaboration platform connecting startups and students through real-world problem statements, proposal submissions, and project tracking.

- Implemented role-based authentication, GitHub integration, and real-time notifications to streamline collaboration and project management.

FormFlow | *Next.js, TypeScript, React.js, MongoDB, Socket.IO, Tailwind CSS* Proof Of Work

- Built a no-code form builder featuring drag-and-drop components, dynamic form customization, and interactive live previews.

- Implemented real-time collaborative editing, conditional logic, version history, and response management with data export capabilities.

The Subconscious | *Next.js, TypeScript, Node.js, Express.js, MongoDB, Google Gemini API, Qdrant* Proof Of Work

- Developed an AI-powered personal knowledge management platform featuring hierarchical notes, offline editing, and automatic background synchronization

- Integrated Google Gemini and vector search for semantic retrieval and context-aware AI responses, alongside secure authentication and encrypted data storage.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, HTML5, CSS3, SQL, C, C++
Libraries & Frameworks: React.js, Next.js, Node.js, Express.js, Socket.io, EJS, Java Servlets, REST APIs, WordPress, Shadcn
Developer Tools: Git, GitHub, Docker, Nginx, AWS EC2, Postman, VS Code
Databases: MySQL, MongoDB, PostgreSQL, Prisma
AI: Gemini API, Retrieval-Augmented Generation (RAG), prompt engineering, AI-assisted development
CS Fundamentals: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, SDLC

LEADERSHIP AND VOLUNTEERING

Google Gemini March 2026 – Nov 2023
Student Ambassador *Google Gemini, AI Prompting, Content Creation, Community Engagement*
- Selected as a Google Student Ambassador to engage with the student community and promote awareness of Google's AI ecosystem.
- Created engaging digital content to communicate AI-related ideas, tools, and student-focused initiatives. Explored the applications of Google Gemini in learning, productivity, and problem-solving. Developed skills in content creation, digital communication, community engagement, and AI-powered productivity.

ACHIEVEMENTS

- Top 3 at **Recode Hackathon**, organized by MPSTME ACM.

- Top 5 finalist at **VES Technothon 2025**, [link to the Technothon page].

- Winner, Best Project of the IT Department at the project exhibition at **Vidyalankar Polytechnic**.
